

J. MESINGER
Corporate Jet Sales, Inc.

BECAUSE A 7 TON,
50 FOOT AIRCRAFT CAN
BE A VERY DELICATE THING.

**FOR EVERY GAUGE MONITORED IN
WE PERFORM AN EQUIVALENT JOB ON
THE NEGOTIATING TABLE.**

EXPERIENCE.

J.Mesinger Corporate Jet Sales, Inc. is a professional aircraft brokerage and consulting firm. We have represented our clients in the sale or acquisition of quality aircraft for over twenty years.

COMMITMENT. EXPERTISE. CONFIDENCE.

These key attributes set us above the industry standard, and enable us to provide you with a wide array of services. Whether it's buying or selling, we analyze your mission profile and weigh as many factors as possible before recommending a course of action.

ONE STEP AHEAD. ONE STEP FURTHER.

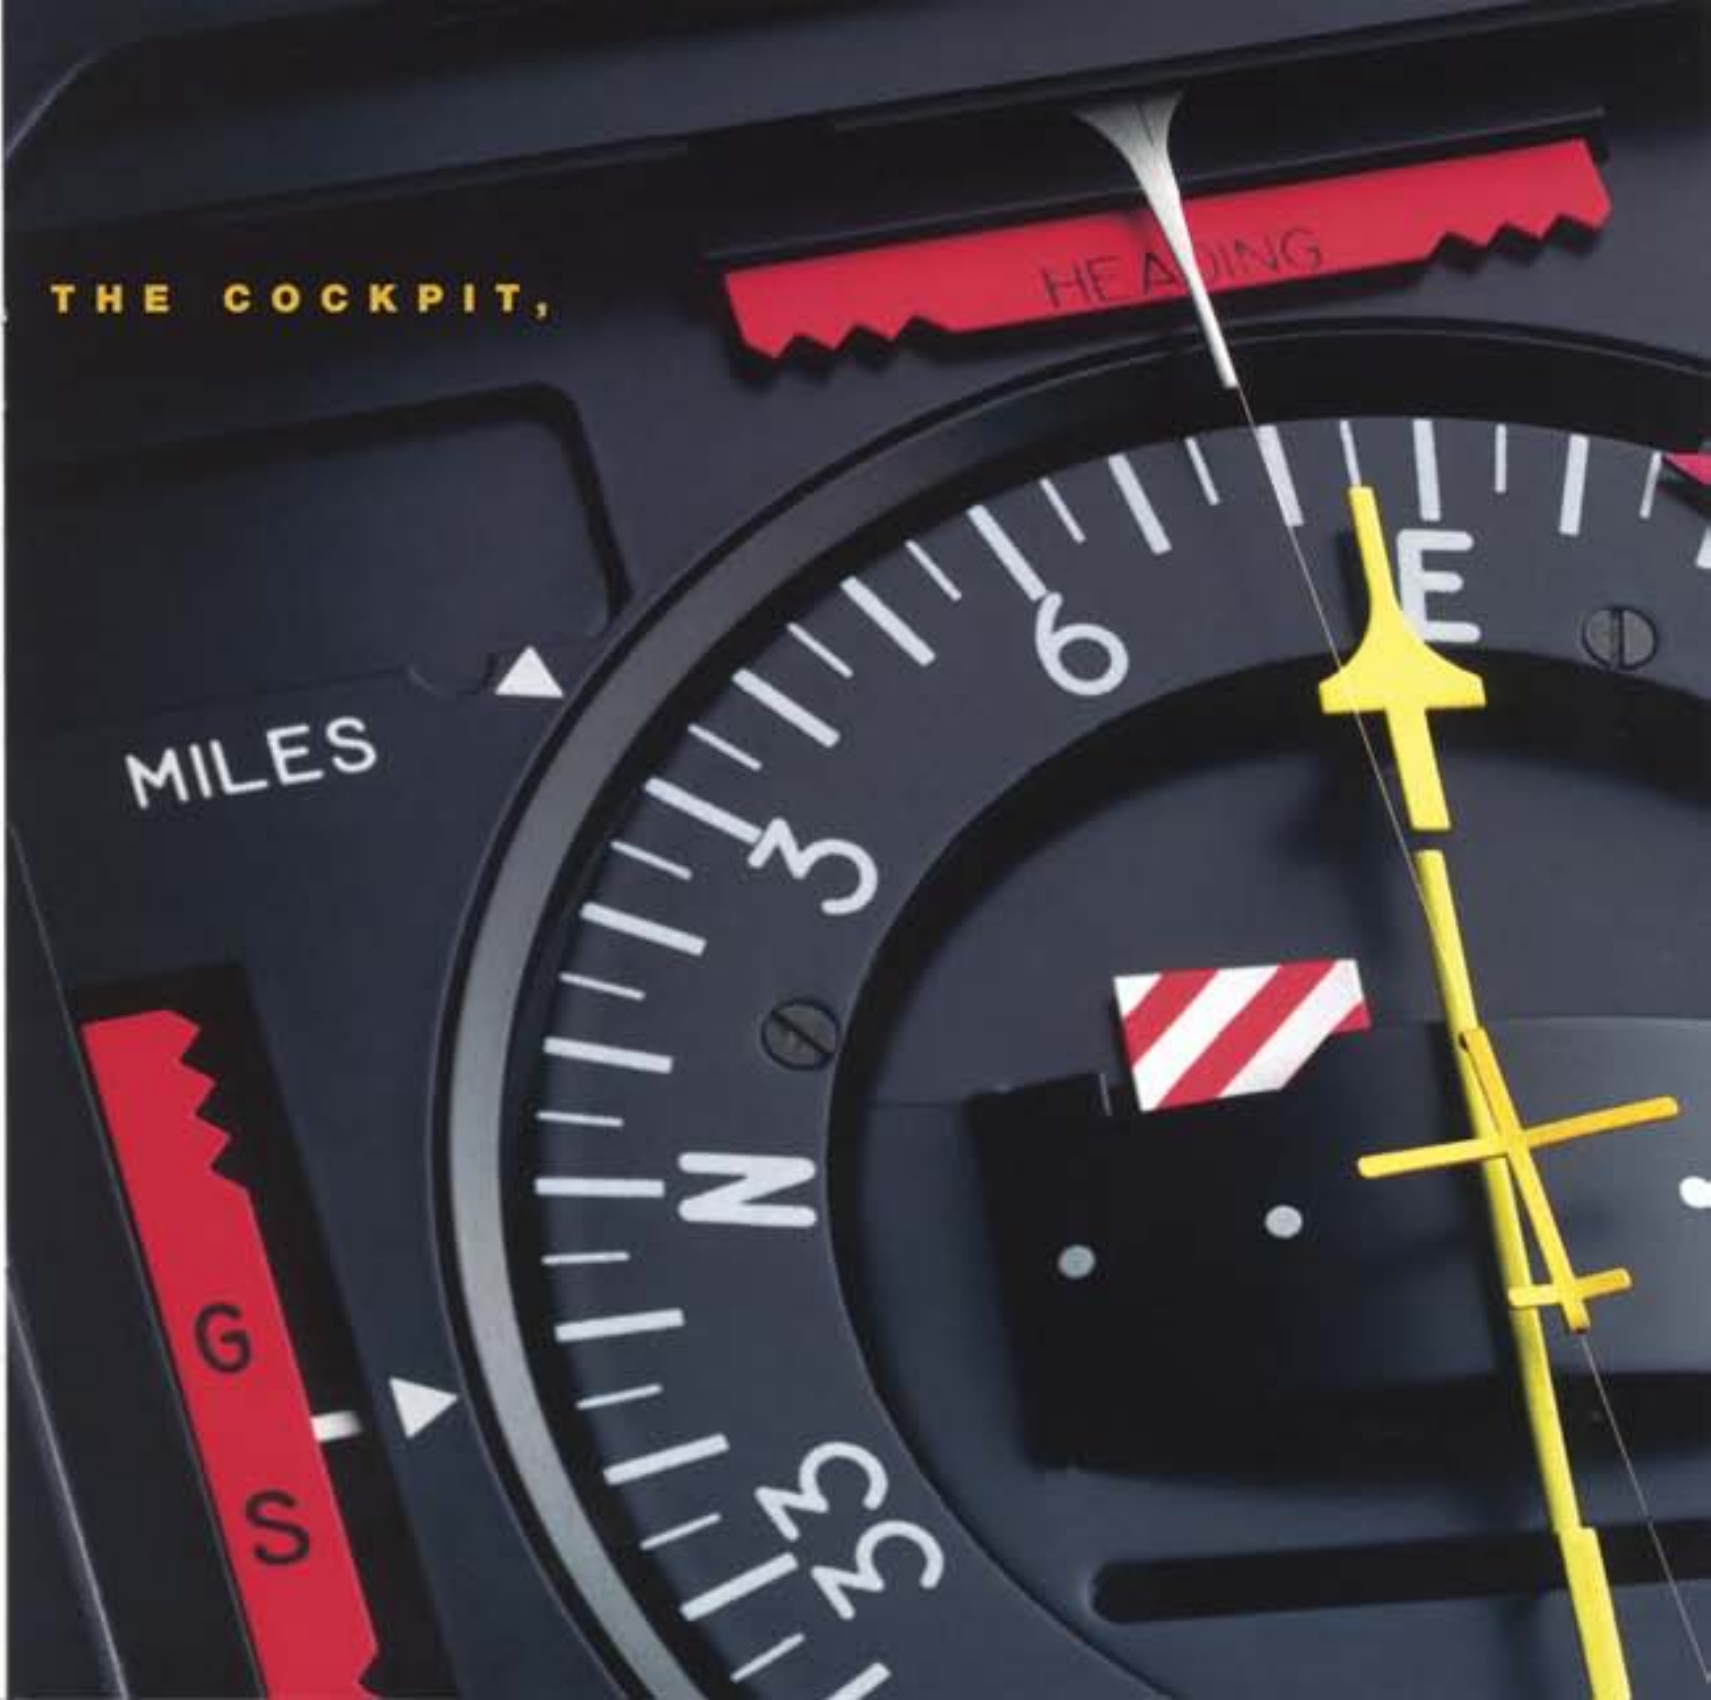

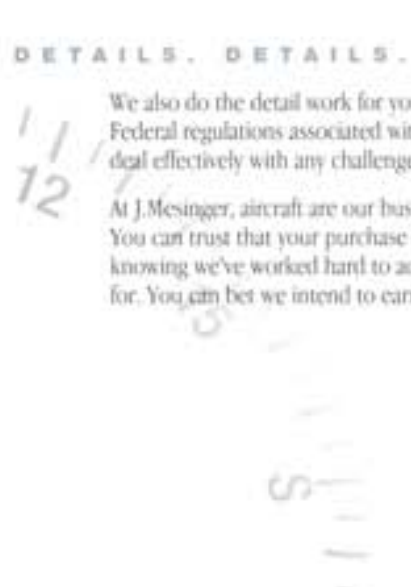

Few other industries fluctuate as much as the aircraft industry. Part of our service includes staying on top of this changing market, where the price, supply, and demand might change at the drop of a stock. Through comprehensive research we'll locate, evaluate and determine the current market value of an aircraft.

DETAILS. DETAILS.

We also do the detail work for you. Let us navigate the complexities of Federal regulations associated with aircraft transactions. Count on us to deal effectively with any challenge that might arise.

At J.Mesinger, aircraft are our business. And clients are our reputation. You can trust that your purchase or sale is in capable hands. You can relax knowing we've worked hard to achieve the level of trust we are known for. You can bet we intend to earn yours.

THE COCKPIT,

PARTNERS IN YOUR PURCHASE.

Why should J.Mesinger represent you in the purchase of an aircraft? Because you can be sure we'll match you with the best aircraft for your needs. We'll analyze your criteria. Zero in on your long-term corporate mission. Measure the best type of aircraft for those goals. And handle everything from locating the aircraft to negotiating the purchase.

CREATING THE RIGHT FIT.

We begin by assessing your needs and corporate mission through evaluations and/or interviews. From there we look for aircraft that might be a suitable match. We base this on such criteria as average distances flown, frequency of flights, seating capacity requirements and options preferred. We also consider fuel capacity/range, speed, altitude capability, instrumentation, flight crew and field length requirements.

PINPOINTING THE IDEAL AIRCRAFT.

Once we determine which type of aircraft will best serve you, we track and receive up-to-the-minute data on aircraft from all over the world. We can instantly pinpoint which jet is available for purchase.

PASSING THE J. MESINGER TEST.

Before we present any aircraft for your consideration, we demand it meets our standards. J.Mesinger requires from the seller: maintenance records, flight logs, inspection forms, and verification of compliance with all existing FAA Airworthiness Directives.

With J.Mesinger you're assured the greatest value for your dollar, including the best purchase price, the highest quality aircraft, and top service that doesn't hit the brakes after the sale.

WE GUARANTEE A SMOOTH RIDE

BEFORE YOU TAKE OFF.
